## film program

With an exciting selection of recent foreign and domestic films, the National Gallery's Film Program for Children and Teens offers innovative film programming, enhances visitor enjoyment of the Gallery's collections and exhibitions, and fosters an understanding of film as an art form. A variety of films—including animation, live action, and classics—is selected to appeal to both youth and adult audiences. Age recommendations assist parents in choosing the most emotionally and intellectually stimulating films for their children.

All film programs are shown in the East Building Auditorium. Seating is offered on a first-come, first-served basis. Groups are welcome. Food and drink are not permitted. Programs are free and subject to change without notice. No advance registration. For up-to-date information on the current month's films, please call (202) 789-3030.

Sunday, October 14 | 11:30 am

Remaining faithful to the story by the Brothers Grimm, the film delivers a haunting live-action adaptation of this classic fairy tale that will scare and delight audiences of all ages. In keeping with the original story's sinister tone, this adaptation features a truly creepy witch and nail-biting scenes, while its outstanding cinematography captures the fable's eerie atmosphere and lush forest setting. Presented in collaboration with the Kids Euro Festival. In German with English subtitles.

### Powers of Ten

Saturday, December 1 | 10:30 am  
Sunday, December 2 | 11:30 am  
Ages 6 and up

Join us for a program of iconic American shorts by designers Charles and Ray Eames and computer programmer and mathematician Al Jarnow. The Eames' *Powers of Ten* (1977) depicts the relative scale of the universe in factors of ten. Other Eames titles in this program include *Tocata for Toy Trains* (1959) and *Tops* (1969). Screened by episode on early childhood television series such as *Sesame Street* and *3, 2, 1 Contact*, Jarnow's animations are as familiar as his name is unknown. Classic titles from the 1970s include *Cosmic Clock*, *Autosong*, and *Paper Origami*. Total running time 55 minutes.
